26: Projected incident movement/spread 12, 24, 48, and 72 hour time frames: 12 hours: <b>Movement to the north and northeast is possible with no direct fireline planned for the north end of the fire.</b> 24 hours: 48 hours: 72 hours:						
27: Values at Risk: include communities, critical infrastructure, natural and cultural resources in 12, 24, 48 and 72 hour time frames: 12 hours: <b>Holly Shelter Gameland wildfire habitat, timber and T&amp;E plant species and Camp LeJeune training areas and ranges.</b> 24 hours: 48 hours: 72 hours:

29: Major problems and concerns (control problems, social/political/economic concerns or impacts, etc.) Relate critical resources needs identified above to the Incident Action Plan. <b>Fuel has an extremely high organic soil component which limits moisture absorption and hinders the ability to put out the fire in this fuel type. Heavy smoke has mixed with other fires, including Pains Bay, Simmons Road and fires in Florida, impairing the air quality of areas along the coast.</b>

Min. Relative Humidity: **49**

32: Today's observed fire behavior (leave blank for non-fire events):  
**Low to moderate rate of spread in the unburned interior islands. Single tree torching.**

33: Significant events today (closures, evacuations, significant progress made, etc.):  
**Resources continue to patrol and monitor line in Division F, F & H. Mop-up burnout operation in Div. K, Patrol & monitor uncontained perimeter in Div. M. Monitor and patrol lines in Div. N & O.**

--	--------------------------------------	---	---------------------------

38: Actions planned for next operational period:  
**Continue to secure and patrol burnout perimeters. Continue indirect strategies in Divisions M. Rehab those portions of plow lines where fire is longer a threat.**

39: For fire incidents, describe resistance to control in terms of:

1. Growth Potential - **High**
2. Difficulty of Terrain - **High**

40: Given the current constraints, when will the chosen management strategy succeed?  
**Unknown**

41: Projected demobilization start date:

42: Remarks:  
**Anticipate superfog event for late this evening into early morning hours on Saturday for area north of the fire impacting I-40 and Hwy 17.**
